Titel: 19th International Conference of Women Engineers and Scientists (ICWES19) - Shaping the Future

The banner features a blue sky background with a modern building on the left and a classical building with a dome on the right. The ICWES19 logo is in the top left, and navigation links 'HOME' and 'REGISTER YOUR INTEREST' are in the top right. A large red rectangle covers the bottom half, containing white text.

# Haere Mai! Welcome to ICWES19

The 19th International Conference of Women Engineers and Scientists  
Auckland, New Zealand

Aotearoa New Zealand is a recognised leader in many fields of STEM development. We're a nation of innovators; science and engineering allow us to thrive in the rest of the world. Our economy is dependent on STEM-based industries such as agriculture and biotechnology, to information technology and manufacturing. We are guardians of unique natural environments, biodiversity and culture.

The 19th International Conference of Women Engineers and Scientists (ICWES19) will take place in Auckland, Aotearoa New Zealand's largest city, from 3-6 September 2023.

deutscher ingenieurinnenbund e. V.

The conference theme - Shaping the Future - will offer examples of and insights for women studying and working in STEM (science, engineering, technology and mathematics), and their advocates, and showcase the potential of science and engineering to change the world for the better.

Women from around the world are invited to submit their work - from fundamental research projects to examples of how science and engineering is being applied in the real world - to be considered for the programme.

Abstract submission is open until December 2022, with the full programme confirmed in early 2023.

For more information on the conference, including details for abstract submission, go to [icwes19.com](http://icwes19.com) <<http://icwes19.com/>> .

To submit an abstract, go to ICWES | Call for abstracts <<https://www.icwes19.com/callforabstracts>> .

Information is also published on these platforms:
