Titel: INWES event at NGO CSW67: Ask anything you wanted to know about INWES, a women-in- STEM network
Join our events at CSW67 on the 8th and the 11th

INWES is one of the sponsors for the NGO CSW67 event this year. This means that we will be running a virtual booth where we promote INWES and run events of our member organizations and INWES during the period of March 6 to March 17.

INWES is particularly interested in "Challenges and opportunities in achieving gender equality and the empowerment of rural women and girls" or "Bridging the digital era divide" or "Women in the digital era.

On the 11th, there will be an event where people would be able to ask women engineers and scientists about the international women in stem organization.

Event title: Ask anything you wanted to know about INWES, a women-in- STEM network
