INNOVATION CAMPUS

University-Wide Inaugural Lecture

Personal Invitation

#2.24

Prof. Dr. Katharina Kleinschrot

Chair of Construction Technology and
Circular Value Creation

Institut für Baubetriebswesen
Technische Universität Dresden

Crisis Change Chance: Circular Construction for Future Fitness

School of Civil and
Environmental Engineering
Faculty of Civil Engineering

A large proportion of the primary resources extracted from the earth can be found in our built environment. Can we make this resource usable again? Do we need to build differently in the future? Circular construction methods have decisive advantages that we need for the world of tomorrow.

Place and Time

🏠 Schönfeld-Auditorium, Georg-Schumann-Straße 13, 01069 Dresden
and Livestream

📅 April 18, 2024
